All-In-One IP EndPoint

Valcom's All-In-One EndPoint can easily and quickly distribute and manage messages through notifications by:

Visual

- Text message for bells, information, text-to-speech, emergencies, etc.
- Flashers for critical messages

Audio

- Speakers for bells, music, paging, lockdown, etc.

The All-In-One Speaker with Text, VL520 works to modernize, synchronize and improve school's schedules, assets and emergency response.

Visit www.valcom.com for more information.
