

# Explosion-Proof Horn

Clarity's 30-Watt Explosion-Proof One-Way horn is a weather-resistant, high-efficiency horn that is used with any Clarity Mixer-Amplifier for interior as well as exterior paging applications. It is ideal for high noise and explosive environments such as service stations and refineries.

The Explosion Proof horn is built with a solid metal housing and is UL listed for use in Class I, Division 1 Group C&D Gas Atmospheres.

## Features & Advantages

### **25/70-Volt**

30-Wall Explosion-Proof Horn Gray.....S-660A

### **UL Listed**

*Meets or exceeds industry standard.*

### **Built-In Transformer**

*Combination 25/70 Volt*

### **Weather-Resistant**

*Able to withstand harsh elements.*
