

Explosion-Proof Horn

Valcom V-1039A Explosion Proof Horn is a high efficiency horn that is equipped with a 7-Watt amplifier. The V-1039A is designed for high noise and explosive environments such as service stations or refineries. The V-1039A is used to provide one-way communication from any Valcom one-way or talkback page control unit. The Explosion-Proof Horn is built with a solid metal housing and is UL listed for use in Class I, Division I, Group C&D atmospheres.

UL Listed approved for use in Class 1, Division 1, Group C & D and Gas Atmospheres.
