

Backboxes/Faceplate

Available in a variety of shapes and sizes.

Valcom Backboxes and Faceplate Enclosures are available in a variety of shapes and sizes to meet any installation requirement. Our backboxes and enclosures are designed to facilitate easy mounting of Valcom's 8" Speakers, Flexhorns™ and Speaker/Clock Combo.

The Surface Mount backbox is preferred when installing on a harder surface such as concrete or cinder block. The Recessed Mount is common for softer surfaces such as drywall. The Angle Mount offers a different sound distribution and can be installed on harder or softer surfaces.

Backbox and Faceplate Enclosures

A. For Use With Square Speaker & Faceplate Assembly

VIP-428A, VIP-428A-IC, VIP-418A-IC, V-CTSQPK, V-936480, V-1920C, V-1921, V-1961
