Valcom's MultiPath System Enhances All School System Environments

Easily Connects
with
CAT 3/5/6 Cable
Cost Saving Installations,
Expansions, Flexibility, and Reliability

MultiPath is a microprocessor based paging communication system that integrates with any telephone system, VoIP-SIP or H.323, traditional trunk ports or stand alone single line telephones.

Communications

Valcom MultiPath™ systems offer high quality internal communication and a multitude of features that are easily configured to suit the most advanced requirements.

All Call Emergency Paging
Notify everyone for quick evacuation or personnel relocation

Multiple / Group Zoning
Communicate with a specific group without disturbing other areas

Visual Messaging Notification
Complement ADA paging compliance with lights and signs

Pre-Announce Tone
Alert everyone that a page is about to begin

Distribution
Utilize VoIP or Traditional System Distribution

Safety/Security

Alert & Evacuation Tones
Use coded tones to signal emergency conditions or direct actions

Alarm Notification
Provide priority paging access for emergency message distribution

Remote Call-In Of Emergencies
Push intercom button to alert the office and activate an intercom call

Security Intercom / Paging
Enhance access control system with communications at locked doors

Door Entry / Security Management
Identify visitors and unlock doors from your desk telephone

Lockdown
Provide facility-wide lockdown and/or individual door control

ADA
Any station may be programmed as an area of refuge with documented response time

Schedules/Clocks

Control of Facility Clocks
Synchronize facility clocks and time clocks with paging class tones

Class Change Tones
Inform of Class changes or scheduled activities

Pre-Recorded Automated Messages
Play messages automatically during the day or after hours

Pre-Recorded Emergency Messages
Provide clear and concise directions during critical emergencies

Programmable Features Per Zone
Configure every area individually

LAN/WAN Ready
Easily connects to the LAN or WAN for system administration

Paging Intercom

Public Address & Paging
Find staff and students who are away from their class areas

Multiple Building Paging Integration
Network multiple buildings to create one system (VoIP & SIP Ready)

All Call or Group Zone Paging
Page entire school or just certain areas

Phone System Integration
Provides multiple system access points

Admin Software

User-Friendly Administration Software
Easily manage your MultiPath Communication System over your LAN/WAN network

Special Features

Monitor Remote Equipment
Listen in to any area or zone

Feedback Elimination
Eliminate squeals when you page, record a page while playing one

Battery Back-up
Continue internal paging communications during power failures

Individual Volume Control
Adjust each speaker location for proper operating level

Spot SoundMasking™
Reduce the possibility of conversations being overheard

Background Music
Provide music in common areas

The Most Advanced Schedule Available — An Easy Click Of A Mouse To Make Changes .

SCHEDULING

MultiPath's user-friendly administration software allows you to easily manage the changing needs of your voice communication system — whether the needs change daily, weekly, monthly, or annually! System configuration is easily tailored to meet the needs of a particular building or an entire facility.

Eight schedules can be created that will run automatically or can be manually controlled. Additional schedules may be archived on your PC or network.

MUSIC DISTRIBUTION

Three program inputs may be activated simultaneously from the Administrators PC to distribute music or .wav files.

SCHEDULE CHANGES

Scheduling is managed on-site, or off-site and can be set in advance for an entire year or easily modified in seconds.

TIME ALERT TONES

1024 possible tone events, your choice of tones and unlimited schedule storage combine to provide the ultimate in flexibility.

CAMERA & DOOR CONTROL

Software programmable features allow easy activation of cameras and electric door locks automatically or on demand.

DEPARTMENT CHANGES

Update staff changes through the software.

Easy Windows™ Programming
