

# Connect™

## So Every Student Can Hear!

Connect™ is a high quality classroom amplification system. Teachers speak in a normal conversational voice that is amplified through loudspeakers in the classroom. Students can easily hear lessons or instructions regardless of where they are seated or where the teacher is standing.

### Benefits

- Test scores improve by 7 - 10%
- Improves student attention
- Significant reduction in behavioral problems
- Over 30% improvement in word recognition for all students
- Reduces teacher stress & throat illness reducing absenteeism

### Easy to use

- Manage ALL multimedia audio levels from one point
- Integrates directly with school intercom
- Positive Paging Control assures the entire page is heard as well as any reply from the classroom
- Most significant teaching aid since the invention of chalk
- Convenient in-wall or shelf mount
- Audio level of other sources are automatically reduced when teacher speaks

### Features

- Lightweight rugged mic
- 4 stereo audio inputs
- Audio output for assistive listening device
- DSP auto feedback/equalization

*Speaker choices for any classroom*
