

Connect™

So Every Student Can Hear!

Connect™ is a high quality classroom amplification system. Teachers speak in a normal conversational voice that is amplified through loudspeakers in the classroom. Students can easily hear lessons or instructions regardless of where they are seated or where the teacher is standing.

Benefits

- Test scores improve by 7 - 10%
- Improves student attention
- Significant reduction in behavioral problems
- Over 30% improvement in word recognition for all students
- Reduces teacher stress & throat illness reducing absenteeism

Easy to use

- Manage ALL multimedia audio levels from one point
- Integrates directly with school intercom & Valcom IP Systems
- Positive Paging Control assures the entire page is heard as well as any reply from the classroom
- Most significant teaching aid since the invention of chalk
- Convenient in-wall or shelf mount
- Audio level of other sources are automatically reduced when teacher speaks

Features

- Lightweight rugged mic
- 4 stereo audio inputs
- Audio output for assistive listening device
- DSP auto feedback/equalization

Speaker choices for any classroom
