

In-Wall Modular Mixers

Valcom's In-Wall Mixers are a cost-effective solution for audio management that eliminates the use of expensive in-wall amplifiers. Valcom's high performance In-Wall Mixer & High-Fidelity Speakers blends with today's modern decor and are the perfect solution for conference rooms, lecture halls, restaurants, auditoriums, institutional cafeterias, sporting complexes and gymnasiums. Three options are available.

- 2-Channel In-Wall Mixer
