

Tone Generators

Valcom's Tone Generators allow you to add distinctive tones or rings over your speakers. The Tone Generators give the ability to alert employees of the start and end of shifts, break times, lunch periods and emergencies. Ideal for manufacturing facilities or any business requiring an audible indication of specified times or emergency situations.

Valcom's family of tone generators include: Multi-tone Generator and C.O. Line Audible Ring Units.

Add distinctive tones or rings over your speakers
