

Earthquake Early Warning™

Powered by **ShakeAlert®** California | Oregon | Washington

EARTHQUAKE! EARTHQUAKE!
EXPECT SHAKING
DROP, COVER, HOLD ON!
PROTECT YOURSELF NOW

WHEN SECONDS COUNT

- Deliver early audio and visual warnings
- Broadcast a unique alerting tone
- Announce safety instructions like: “Drop, Cover, Hold On”
- Activate warnings based on site-specific location details
- Connect to PA systems, LED signs, and PC screen pops
- Provide time to shut down equipment, open doors, stop-open elevators and others*

Speakers with Text & Flashers
Overhead Paging Systems
Desktop Alerts

When an earthquake happens, broadcasting early warnings is a must have to help save lives and reduce physical injuries. Valcom’s Earthquake Early Warning System (VEEWS) is licensed to deliver these messages from the USGS **ShakeAlert®** system.

Configured automatically to your site’s exact location and soil conditions, VEEWS is capable of announcing messages powered by the **ShakeAlert®** remote sensor network seconds in advance of shaking. On-premise notifications allow you to seek safety immediately, disconnect sensitive equipment, move elevators to nearest floor, cover patients, and more!

For **automated actions see reverse side.*

MAKE VEEWS THE DIFFERENCE

Earthquake Early Warning™

Powered by **ShakeAlert®** California | Oregon | Washington

In partnership and licensed by the United States Geological Survey (USGS), Valcom's Earthquake Early Warning System (VEEWS) powered by **ShakeAlert®**, has already proven its ability to deliver audio and visual notifications seconds in advance of localized shaking. Valcom recognizes the tremendous physical and life-safety benefits achieved with these warnings – and is now seeking to expand VEEWS functionality to include automated actions that can further protect life and property when these catastrophic events occur.

Automated actions including:

- Open-close overhead doors
- Lock-unlock access doors
- Open-close gas, H2O, and other valves
- Shut down sensitive equipment
- Start emergency generators
- Activation of emergency lighting systems
- Moving elevators to nearby floors
- Operate system controls such as HVAC
- Other automated mechanisms to meet unique needs

If you are interested in partnering with us to implement these exciting life and property saving functionalities, call or email us at: 800.825.2661, earthquake@valcom.com
