

Explosion-Proof Horn

Valcom's Explosion-Proof One-Way horn is a weather-resistant, high-efficiency horn with a built-in 7-Watt amplifier. It is ideal for high noise and explosive environments such as service stations and refineries.

Built with a solid metal housing, the Explosion-Proof horn includes a V-1092 volume control. The Explosion Proof horn is UL listed for use in Class I, Division 1, Group C&D Gas Atmospheres.
