

# IP Clocks

Valcom's IP Clocks automatically receive time updates through your TCP/IP network via NTP (Network Time Protocol). IP Clocks provide a facility-wide time standard, are simple and easy to install, and provide proven time-keeping accuracy and reliability for your organization. Valcom's Synchronized IP Clocks are ideal for schools, universities, offices, government agencies, healthcare, manufacturing and transportation facilities.

## Features & Advantages

### No Master Clock Required

*Easy integration with your existing network infrastructure.*

### NTP (Network Time Protocol) Updates

*No more adjusting time manually!*

### Power over Ethernet (PoE)

*Eliminates the need for power supplies.*
