

## FEATURES:

- Receives the Signal from Any Valcom Wireless Clock And Re-Transmits It
- Perfect for Applications with Extremely Long Distances
- Works on Valcom's 915-928 MHz Frequency Hopping Technology
- Transmits Up to 2000 Meters in Open Space
- Powerful 30dbm Transmission
- Extremely Slim Design Makes the Repeater Versatile for Mounting
- No Need for Custom Back Box
- FCC Compliant, Part 15, Section 15,247
- Made in The U.S.A.
