INTRODUCTION
The V-1961, 8” 45 Ohm Talkback Speaker with Square Faceplate, is used with Valcom “Handsfree” Talkback Page Control units.

DIMENSIONS/WEIGHT
- 11.5” H x 11.5” W x 3.7” D
  (29.2 cm x 29.2 cm W x 11.4 cm)
- Weight: 3.2 LBS (1.45 kg)

Environment
Temperature: 0 to +40°C
Humidity: 0 to 85% non-precipitating

Mounting
Valcom offers three backboxes (not included) for mounting the V-1961 speaker. The VB-S11 (surface mount), VB-A13 (angled surface mount) and VB-R12 (recess mount) are all designed to fit the V-1961. Mount the backbox according to the instructions provided with the backbox. After mounting the backbox, connect the cable to the screw terminals on the amplifier. Mount the speaker baffle to the backbox with the hardware provided.

IMPORTANT
The speaker is no better than your ears. If you cannot carry on a conversation at normal voice levels over the required talkback distance, then the talkback page equipment will not function satisfactorily.

Use common sense when mounting a talkback speaker. The speaker should be as close as possible to the area where talkback is desired.

It should not be mounted close to or pointed at, noise producing equipment such as fans, air conditioners, machinery or compressors.
FIGURE 1: TYPICAL CONNECTIONS
NOTE: Do not connect this speaker directly to a 25/70/100 Volt amplifier as damage to both the amplifier and speaker may occur. A V-1095 may be used to allow the use of Valcom self-amplified speakers on 70V speaker lines.

Talkback not recommended above 80dB

Limitations

- Two talkback plus 40 one-way amplified speakers maximum per zone when mixing talkback and one-way paging.
- 800 feet maximum cable length to speaker from page control.
  **NOTE: Do not split pairs to speakers.**
- Do not use talkback in noisy areas (80dB or greater).

Valcom recommends that the total number of speakers per talkback zone be limited to two talkback and forty one-way self-amplified speakers. The reasoning behind this recommendations is simple. Whenever a page is made into a talkback zone, the paging party will hear audio from all of the talkback speakers in that zone. If a zone contains more than two talkback speakers, the talkback audio from the “extra” speakers will impede the quality of the talkback audio from the desired speaker. Additionally, there are limits to the number of talkback speakers that a page control will actually drive. Ideally, if a page were made into a talkback zone, all of the speakers would simply act like “one-way” speakers except for the one that is closest to the paged person.

INSTALLATION

Connections

Two conductor twisted wire is required for the 45 Ohm talkback speakers. Standard 22 or 24 gauge station wire is acceptable. Shielded wire is not required or recommended. Connections are as follows:
- Speaker out from page control to speaker tip
- Speaker common to speaker ring

TROUBLESHOOTING CHART

<table>
<thead>
<tr>
<th>SYMPTOMS</th>
<th>ACTIONS</th>
</tr>
</thead>
<tbody>
<tr>
<td>No sound in page mode</td>
<td>Check tip and ring for audio at speaker.</td>
</tr>
<tr>
<td>Low sound in page mode</td>
<td>Check tip and ring for audio at control unit.</td>
</tr>
<tr>
<td>Poor listening in talkback mode</td>
<td>Check volume controls at page control.</td>
</tr>
<tr>
<td></td>
<td>Check talkback volume control at page control. Set control where audio is clearly audible.</td>
</tr>
<tr>
<td></td>
<td>Check presence and polarity of LED input signal.</td>

5614 Hollins Road
Roanoke, Va. 24019-5056

Information provided is subject to change

VALCOM LIMITED WARRANTY
Valcom, Inc. warrants its products only to the original purchaser, for its own use, to be free from defects in materials and workmanship under conditions of normal use and service for a period of one year from the date of shipment. This Limited Warranty obligation shall be limited to the replacement, repair or refund of any such defective device within the warranty period, provided that:

1. inspection by Valcom, Inc. indicates the validity of the claim;
2. the defect is not the result of damage, misuse or negligence after the original shipment;
3. the product has not been altered in any way or repaired by others and that factory sealed units are unopened (a service charge plus parts and labor will be applied to units defaced or physically damaged);
4. freight charges for the return of products to Valcom are prepaid;
5. all units ‘out of warranty’ are subject to a service charge. The service charge will cover minor repairs (major repairs will be subject to additional charges for parts and labor).

This Limited Warranty is in lieu of and excludes all other warranties, expressed or implied and in no event shall Valcom, Inc. be liable for any anticipated profits, consequential damages, loss of time or other losses incurred by the buyer in connection with the purchase, operation, maintenance, installation, removal or use of the product. The maximum liability of Valcom under this warranty is limited to the purchase price of the specific Product covered by the warranty.

Disclaimer. Except for the Limited Warranty provided herein, the product is provided “as-is” without any warranty of any kind whatsoever including, without limitation, any WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE OR NON-INFRINGEMENT.

This warranty specifically excludes damage incurred in shipment. In the event a product is received in damaged condition, the carrier should be notified immediately. Claims for such damage should be filed with the carrier involved in accordance with the F.O.B. point.
