Instructor-based Hands-on

Valcom Engineered Solutions

Register today for Valcom's IP6000 Technical Training.

During this 3-day class, attendees will become familiar with Valcom IP equipment from initial setup to a complete working system. The course comprises an instructor-based introduction/overview, hands-on, and PDF resources. Both full IP and retrofit systems will be discussed.

DAY 1- Lecture & Lab

Understanding IP6000

1. Purpose of IP6000 systems
2. Basic architectures
 - IP
 - Hybrid
 - Analog
3. Product categories
 - Voice Paging
 - Intercom
 - Visual Notification
 - LED Signs
 - Strobes
 - Desktop Alerts
 - IP HelpPoints
 - Mobile App
 - Servers
 - Gateways
4. Terminology
5. Network Requirements

Proficiency with VIP-102B Setup Tool

1. What does the VIP-102B tool do?
 - Programming workflow - VIP-102B through IP6000
2. VIP-102B Navigation overview
3. Connect & scan class equipment
4. Assign IP addresses
5. Assign dial codes
6. Assign audio group codes

System Balancing

1. Speaker placement & spacing
2. Volume Adjustments

DAY 2- Lab

Proficiency with the IP6000 Software

1. Basic navigation
 - Default password
 - Menus
2. Files
 - File types
 - How to upload
3. Events
4. Playlists
5. Triggers
6. Users & Roles

DAY 3- Lab

1. Troubleshooting
 - Tools
 - Resources
2. Advanced programming
 - Data monitoring & Regex

*Students will perform many exercises throughout the day to develop their understanding of all of the concepts outlined here.

All students must complete the required online training before attending the in-person class.

Please note that failure to complete this prerequisite will result in being unable to participate.

What You
Need To
Know

Attendees of the Technical Training will need:

- a jacket or light sweater
- an unblocked Windows 10 or higher laptop PC with an RJ45 Ethernet Jack or USB to Ethernet adapter. Port restriction by protection programs may hinder the ability to perform in class programming. Please verify with your IT director before attending class.
- install the VIP-102B IP Solutions Setup Tool
Found at <http://www.Valcom.com/esd> on the laptop PC prior to travel.

Registration will be complete
when you receive confirmation via e-mail or telephone.

BICSI recognizes Engineered Solutions Systems IP Based Intercom/Emergency Mass
Notification Technical Training for BICSI continuing Education Credits (CECs). Effective 9/12/2024

- Valcom's total liability shall be limited to tuition reimbursement if this training event is delayed or prevented by an act of God, force majeure, or other circumstances outside of Valcom's control.
- We understand that unforeseen circumstances occur. For companies registering up to 2 attendees, no fee cancellation is permitted twenty business days before class; this allows time to accommodate others.
